Colson/The Post WG machismo: Today's Post has no mention of the LATimes Colson story that was all over radio and TV yesterday, nor does it include the followups on that story, including the prediction of Colson's lawyer/partner, Shapiro, that what he has will make a good story. Colson, on CBS-TV a.m.news (taped yester and used on radio yesterday) made what he guised as a strong denial of the LATimes story but is actually pointed confirmatior The story may well have come from him to begin with...No paper i doubted Nixon's statement that he is making an investigation of his own, and none seems to have asked how he can do this from such places as Camp David, San Clemente and now Key Biscayne and the Bahamas. And still be active as President. Or, he is ~~making~~ making no investigation and has made none. HW 4/23/73
